

Degree project days 25 October 2021

During the degree project days, from 25 October to 31 December, Mälardalen University (MDH) will invite representatives from the private and public sectors who will have degree project assignments for you as a student.

More and more organisations in both the private and public sectors are recognising the benefits of involving students in their projects. This is a golden opportunity to apply your knowledge, get professional experience opportunities and make connections with potential employers.

What's new for this year is digital matchmaking on 25 October

During the period 25 October to 31 December we will publish degree projects on mdh.se. Do you want to establish personal contacts with the companies? Then you should participate in our digital kick-off with matchmaking on 25 October where you'll get the opportunity to listen to company and degree projects presentations and meet the companies in smaller groups.

Would you like join in?

If you don't want to miss this opportunity, please sign up below, so you can get the link directly to your inbox on 25 October.

[Register here](#)

The link will also be published on our website when the time draws nearer.

Are you familiar with the degree project database?

In addition to the degree project activities that will be launched on 25 October, you can also use our degree project database. Here you will find degree projects which are matched to the respective disciplinary domain. Link <http://www.exjobbmdh.se/>

Have you any questions?

Please contact us by email on: karriartorget@mdh.se

Welcome!
